

Latrine handling on allotment gardens

In Landskrona every allotment garden with a cabin must have a dry closet installed. It's you as a tenant who is responsible for the installation.

The latrine can be handled at any of the following ways:

Pick up by LSR (waste company)	Treatment of latrine on site	Combustion closet
Starts automatically when a new lease agreement is signed. Duration may - september	Composting the latrine in for the purpose customized containers. Requires a notification to the local authority of environmental and health (Miljöförvaltningen)	The combustion closet doesn't require composting.

NOTE all solutions that involve **water or chemicals are prohibited** within the allotment gardens. **Separated urine** must not be discharged into the **drainage water** within the allotment area.

When should you notify Miljöförvaltningen?

If you **want to avoid the automatic pick up by LSR** you have to notify Miljöförvaltningen within two weeks from signing the lease agreement.

Application form <https://eservice.landskrona.se/>

What does it cost?

A notification about composting latrine costs **1870 SEK** and is valid for **5 years**. To get the latrine collected by LSR costs from **2355 SEK** to **5336 SEK** per year depending on how often the latrine is picked up. The fee is adjusted annually.

Still questions?
